### **Trilithic Announces Terminal Mode for the 860 DSP Multifunction HFC Analyzer**

---

**Indianapolis, Indiana (Wednesday, November 28, 2001)** – Terminal Mode transforms the TRILITHIC 860 DSP Multifunction Analyzer into a general purpose field data terminal, giving TRILITHIC and other suppliers an RF communications system for sharing technical and non-technical data with operators in the field. TRILITHIC makes Terminal Mode protocols available to all suppliers wishing to use the new capability, and will be demonstrating a connection to AM Communication's OmniStat Management System at the Western Show.
